## EDUCATION

**The University of Texas at Austin – Center for Professional Education in Houston**, Houston, TX

The Houston Coding Boot Camp – Full Stack Flex Program, Certificate expected 08/2018

*Skills acquired: HTML5, CSS3, Bootstrap, Responsive Design, JavaScript, jQuery, Node.js, Express.js, MySQL, MongoDB, Handlebars.js, React.js, Git, and Heroku*

**Rensselaer Polytechnic Institute**, Troy, NY

BS, Mechanical Engineering

## CURRENT PROJECTS

**W.I.N. Houston:** Self-Selected Full Stack Group Project

- Web application for connecting women in need (W.I.N.)/in crisis in Houston with local resources on the front end, while developing a network of resources created by the app's members on the backend.
- Defined project parameters and structure. Collaborated with team to create a full stack application. Personally involved in all aspects of backend development including developing the beginnings of a member dashboard and leading efforts to successfully incorporate an authenticated login feature and establish the server using Node.js, Express, Handlebars, Sequelize, Javascript/JQuery, and Passport and Bcryptjs. Also used Git for file management and Heroku for deployment with database.

GitHub: <https://github.com/sbedner/project2>

**My Veggie Eats:** Self-Selected Front End Group Project

- Web application for vegetarians to search for nearby dining options with personalized hot spots and dining notes
- Collaborated with team using Trello and Git to manage project tasks and files. Personally responsible for wireframe, front end design and coding, and mobile responsiveness using Mockflow, HTML, CSS, and Materialize

## **PROFESSIONAL EXPERIENCE**

**Cy-Fair ISD and Katy ISD, 2008 – 2017**

*Math Teacher*

- Optimized course materials and streamlined instruction
- Continually analyzed student scores and adjusted instruction to maximize success and meet increased rigor of standardized tests.
- Set-up and operated a lunch-hour drop-in tutoring lab.
- Designed and developed math boot camp for at-risk students for campus.
- Interacted with students, parents, team, department, school administration and district support staff.

**MotherMedia LLC, 1998 - 2008**

*Front End Web Developer*

- Owned and operated web development company
- Responsible for front end programming(HTML/CSS/CGI) and project management from start of creative design, through development, and on to test, launch, and maintenance
- Coordinated efforts of team of freelancers, prioritizing and delegating responsibilities to meet the project requirements
- Helped small businesses evaluate their needs to efficiently and effectively establish their online presence

**Tyree Environmental Technologies, 1993 - 1996**

*Project Engineer*

- Functioned as liaison to Mobil Oil Corporation for construction of new/redesigned/upgraded service stations
- Coordinated efforts of team of architects, engineers, subcontractors, and service station managers to effectively meet project milestones and maintain project schedules
- Interfaced with town officials to obtain necessary project approvals and permits in expeditious manner

**Hughes Electronics Corporation, 1987 - 1993**

*Mechanical Engineer*

- Collaborated with team to design, test, and build mechanical support mount for optics measuring station, and functioned as liaison to oversee contractor to secure fabrication of optics
- Maintained project schedule and reported status to NASA
- Conducted thermal analysis of various aerospace components
